INTRODUCING

VARILUX S series™

LIMITLESS VISION™

EXPERIENCE THE REVOLUTION IN PROGRESSIVE LENSES

NANOPTIX™

A revolution in lens technology that ensures stability in motion

Many people who wear progressive lenses complain about the swim effect—feeling off-balance when you are walking down stairs or when your environment is moving.

Now for the first time, thanks to Nanoptix™ Technology, the swim effect is virtually eliminated, offering you **stability in motion**.

"I feel more confident when **going down stairs**."

SYNCHROEYES™

A revolution in lens design that ensures expansive vision

People often complain about their field of vision being limited with progressive lenses.

Thanks to SynchronEyes™ Technology, for the first time, both the left and right lenses work together as one visual system so you get **expansive vision** and never before experienced edge-to-edge clarity.

"I don't have to keep finding the clear area— **it's all clear**."

Ranked #1 on every lens feature by people in independent studies, Varilux S Series™ lenses are undeniably in a class of their own, offering you a visual experience that is truly **limitless**.

" From the moment I put them on, I could see the difference."
