

## The Leading Dominant Eye™

Just as people are left-handed or right-handed, they also have a leading dominant eye—the eye that reaches the object being viewed first when we change gaze direction.

Varilux S 4D™ lenses offer faster visual reaction time, allowing gaze shifts to be automatic.

# VARILUX S series™

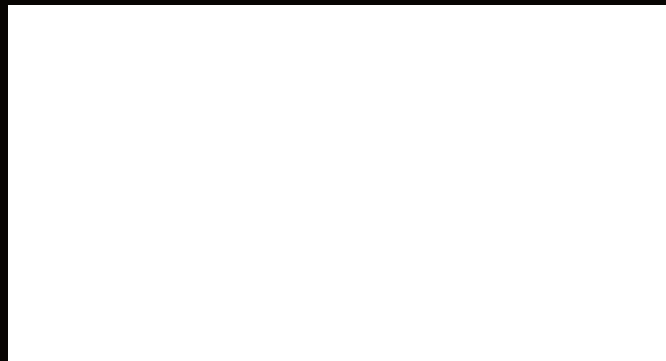

LIMITLESS VISION™

### Experience

- **Faster Visual Reaction Time™**
- **Expansive vision**
- **Stability in motion**
- **Guaranteed performance**

For the clearest vision possible, Varilux® lenses are recommended with Crizal® No-Glare technology.

Ask your eyecare professional about the entire Varilux S Series™.

## A Revolution in Personalization

The most sophisticated level of advancement in the Varilux S Series™ portfolio, Varilux S 4D™ lenses are exclusively available from eyecare professionals with the Visioffice® System.

Only 4D Technology factors in the leading dominant eye, along with other personalized measurements, for a faster visual experience.

Thanks to its 3 revolutionary new technologies, Varilux S 4D™ lenses dramatically defy the limits of progressive lenses so radically that **performance is actually guaranteed**.\*

4D) TECHNOLOGY™

NANOPTIX™

A revolution in lens technology that virtually eliminates swim effect and offers you stability in motion, assuring adaptation.

SYNCHROEYES™

A revolution in lens design that gives you more expansive vision than ever before in a progressive lens.

\*[www.myvariluxseries.com](http://www.myvariluxseries.com)

Varilux S 4D™ lenses were ranked #1 on every lens feature by **patients** in independent studies, making them undeniably in a class of their own when it comes to addressing issues like swim, motion stability, expansive vision and personalization.

“ When I turn my head,  
my vision is so fast.  
**It’s automatic.**”

“ I feel **more confident** when  
going down stairs.”

“ I don’t have to keep  
finding the clear area—  
**it’s all clear.**”
