Transitions®
ADAPTIVE SUNGLASSES

OUTDOOR LIGHT CHANGES, YOUR SUNGLASSES SHOULD TOO

DRIVE · GOLF · PEDAL · RIDE · RUN · SNOW · TRAIL · WATER

The Transitions® line of adaptive sunglasses, helmet shields and snow goggle lenses automatically lighten and darken, from sunrise to sunset, for an all-day, visually comfortable experience. Our adaptive sunwear technologies make sports and outdoor activities more convenient by eliminating the need to switch between different pairs of sunwear throughout the day. They help reduce glare, increase contrast, and improve distance and depth perception.

www.Transitions.com/Sunwear

ADAPTIVE SUN LENSES FOR YOUR DRIVING NEEDS.

Transitions® DriveWear®

TRANSITIONS® DRIVEWEAR® SUN LENSES

For those who drive, Transitions® Drivewear® sun lenses provide a safer, more comfortable driving experience by combining polarization, color optimization and photochromic technology to enhance a driver's vision by adapting to and managing the ever-changing daytime light & weather conditions faced by drivers.

In low light or overcast conditions, the lenses are a green/yellow color that provide high contrast and minimize glare.

Behind the windshield, the lenses activate to a copper color enhancing color recognition and depth perception.

In bright outdoor light, the lenses activate to a dark red-brown filtering excess light to provide maximum comfort.

CALLAWAY® NEOX® TRANSITIONS® SUNGLASSES

GOLF

Using technology specifically designed for golfers, Callaway® NEOX® Transitions® sunglasses counteract problems encountered with typical sunglasses, like object sight distortion, while delivering increased depth perception, better distance vision and superior clarity.

GREEN/YELLOW
Provides contrast enhancement in low light conditions.

DARK GREEN
Improves depth perception, makes the contours of the ground more distinct.

XPERIO® TRANSITIONS® SUN LENSES

TRAIL

Combining polarization with photochromic technology makes these sun lenses ideal for spending leisure time outdoors, boating or fishing.

ASH GRAY

GRAY
Transmits colors evenly.

DARK GRAY
Provides truer color recognition in bright light.

CARAMEL BROWN

BROWN
Improves contrast and depth perception.

DARK BROWN
Makes green colors, like grass, pop.
